Skills

- **Languages:** Python, C, C++, JavaScript
- **Web Technologies:** HTML, CSS
- **Data Tools:** Excel, Power BI
- **Tools:** Git, GitHub, VS Code
- **Soft Skills:** Problem Solving, Teamwork, Adaptability

Projects

- **Fake Profile Detection System using Machine Learning | GitHub** Feb'25 – Mar'25
  - Designed and trained a Random Forest classifier using scikit-learn and pandas on a dataset of 10,000+ social media profiles, achieving ~94% accuracy
  - Performed feature engineering including null-ratio analysis, profile completeness scoring, and activity pattern extraction to improve model precision
  - Evaluated model performance using ROC-AUC score of 0.94, confusion matrix analysis, and applied 5-fold cross-validation to prevent overfitting
  - Compared multiple classifiers (Logistic Regression, Decision Tree, Random Forest) and selected the best-performing model based on F1-score
- **Law Guide India | GitHub** Oct'25 – Nov'25
  - Developed a fully responsive legal awareness website using HTML, CSS, and JavaScript to simplify access to Indian laws for the general public
  - Designed an intuitive, user-friendly interface with structured navigation covering 10+ legal categories including property, criminal, and consumer law
  - Implemented a clean content hierarchy to make complex legal terminology understandable for non-legal audiences without prior legal knowledge

Experience

- **Marketing Lead – LPU | EventViewz (Training & Development Sector)** Aug'25 – Present
  - Led end-to-end marketing strategy for EventViewz at LPU, driving measurable increases in student engagement, event registrations, and brand visibility across campus
  - Designed and executed promotional campaigns across social media and offline channels, collaborating with department heads to expand audience reach
  - Coordinated with event planning teams to build optimized marketing funnels, monitor participation metrics, and continuously improve outreach effectiveness

Training

- **Logic Building, Programming and Data Structures: Learn How to Think, Program and Apply** Jun'25 – Jul'25
  Lovely Professional University – Centre for Professional Enhancement
  - Completed intensive hands-on training focused on algorithmic thinking, structured problem-solving, and foundational data structures in C and Python
  - Implemented and analyzed core data structures including arrays, linked lists, stacks, queues, and trees while solving 50+ progressive logic-building exercises

Certificates

- Build Generative AI Apps and Solutions with No-Code Tools – (Infosys Springboard) Aug'25
- Master Generative AI & Generative AI Tools (ChatGPT & more) – (Infosys Springboard) Aug'25
- Computer Communications – University of Colorado (Coursera) Nov'24
- The Bits and Bytes of Computer Networking – Google (Coursera) Sep'24

Achievements

- **1st Position – LPU Freshmen League – 2023:** Secured 1st position among all first-year students in the LPU Freshmen League 2023 Reel-Making Competition, demonstrating creativity and digital storytelling skills

Education

Lovely Professional University Jalandhar, Punjab
- *Bachelor of Technology – Computer Science and Engineering;* ***CGPA: 6.73*** Aug'2023 – Present

LJP SVM Inter College Muzaffarnagar, Uttar Pradesh
- *Intermediate;* ***Percentage: 82*** Apr'2022 – Mar'2023

LJP SVM Inter College Muzaffarnagar, Uttar Pradesh
- *Matriculation;* ***Percentage: 80*** Apr'2020 – Mar'2021
